## **Our holding**

Our 7 hectares of vineyards are situated on the southern and southeastern Wienerwald slopes in the thermal-spring region.

To preserve and support the fauna and flora of our viticultural area we cultivate our holding in accordance with the guidelines for sustainable agriculture. Starting March 2015 we have become a sustainably certified business.

Our high-quality wines are pressed from the traditional Austrian grape variety. This variety comprises Rotgipfler, Zierfandler, Grüner Veltliner, Rheinriesling, Neuburger, Muskat Ottonel, Pinot Blanc, Chardonnay, St. Laurent, Blaufränkisch and Zweigelt.

The aging process is carried out in small wooden barrels or steel tanks.

## **Our wine tavern**

For generations we have operated as a wine tavern in our winegrower's house, which was documentarily mentioned for the first time in 1431.

In the course of the decades and with a lot of love and due respect for its original form this historic winegrower's farm house was formed into a wine tavern.

The inner courtyard is roofed by an impressive wine arbour and thereby conveys the atmosphere of a cosy "Perchtoldsdorfian" wine tavern that invites you to stay and relax.

The natural and very quiet garden is shaded by old plum trees. For our young guests we offer a playground and paper and pencils for drawing so parents can meanwhile relax in our wine tavern.

The wine tavern extends on two levels. The groundlevel, historically arched part reflects the house's age and conveys an atmosphere of traditional cosiness.

The half-storey offers you a "Stüberl" that is particularly suitable for festive occasions. According to the number of guests the size can be varied.

Our rich warm and cold buffet, ranging from traditional local delicacies to seasonal dishes, grill specialties and vegetarian dishes, is a treat for any palate.
